Maintenance tips brought to you by your Maintenance Supervisor

- Time to check your air conditioning! Warm weather is coming, so test your system and give us a call if you are experiencing any issues.
- Your air filter should be changed every 3 months. Please put in a request for service through Active Building or call the office if your filter is due to be changed.
- **Do not put cooking oil or grease down the sink. Let it cool in the pan, pour it into an empty container, place the container in a plastic bag and throw it in the garbage.**

We appreciate our residents!

Thank you for choosing Providence Park Apartments
